

Press Release

MÜPRO expands to Ireland through the acquisition of MSS

Wiesbaden, April 2nd, 2025 – MÜPRO International GmbH (“MÜPRO” or “the Group”), a portfolio company of IK Partners’ funds, is pleased to announce that it has signed an agreement to acquire MSS Building Services Ltd (“MSS” or “the Company”), a specialist distributor of advanced support systems based in Ireland. This acquisition marks MÜPRO’s first direct presence in the Irish market, reinforcing its commitment to serve customers across borders with local expertise and technical excellence.

Headquartered in Dublin, Ireland, MSS has developed a strong reputation for its deep technical know-how and reliability, particularly in the fast-growing Data Centre sector. The company is known for its comprehensive range of mechanical and electrical support systems, including bespoke prefabricated solutions for complex infrastructure environments. Its experience in high-performance and mission-critical settings - especially supporting datacentre construction and fit-outs - has made MSS a trusted partner to major players in the Irish and European markets and has an existing relationship with MÜPRO as a supplier.

Since the investment by funds managed by IK Partners into MÜPRO, this transaction is the second acquisition of MÜPRO and is part of its long-term strategy to become a leading European player in the pipe fastening market by growing in core markets and new geographies both organically and through M&A. The acquisition of MSS also marks an important cornerstone for further growth in the UK and Ireland and better enables the group to serve multinational customers, especially those in the datacentre and technology infrastructure space. The transaction is subject to customary regulatory approvals.

Dr. Wolfgang Gödel, CEO of MÜPRO Group, said:

“We are delighted to welcome MSS to the MÜPRO family. Its outstanding service level, high-quality solutions and deep customer relationships with key clients in Ireland complement our own strengths and ambitions. Establishing a direct presence in Ireland and expanding our expertise in data centre projects is an important milestone in our international expansion, and we look forward to building on the strong foundations MSS Services has created.”

Darren Kiely, Director of MSS Services Ltd, commented:

“Becoming part of MÜPRO marks an exciting new chapter for MSS Services. This partnership will allow us to leverage MÜPRO’s extensive product portfolio, R&D capabilities, and international network while continuing to deliver the same trusted service to our clients. We look forward to growing together and bringing even more value to our customers.”

William McDonald, Director of MSS Services Ltd, added:

“MÜPRO shares our hands-on, customer-first philosophy, and that was incredibly important to us. We’re confident that this collaboration will open new opportunities not just for our team, but also for our clients, who will benefit from an even broader range of solutions backed by a global brand.”

About MSS

MSS Ltd., established in 2001 as a joint venture with MÜPRO, is a leading supplier of mechanical and electrical support systems in Ireland. Following a management buyout in 2006, the company rebranded to M.S.S. Building Services Ltd. The Company offers a wide range of products, including brackets, supports, ladders, and trays. With a commitment to exceptional customer service, MSS Ltd. has built strong relationships with clients. For more information, visit www.mssltd.ie
