

RENTA ACQUIRES CONTAINERTECH

19 May 2025

Renta Group Oy (“Renta Group” or “Renta”) acquires Containertech Rental AS (“Containertech Rental” or “the Company”), the rental business of Containertech AS. Containertech Rental is a rental company offering specialised container-based water treatment solutions used especially in tunnel infrastructure projects across Norway. The Company has an annual revenue of approximately NOK 26 million.

With the acquisition, Renta further strengthens its position in the infrastructure rental segment by extending its product offering to container-based water treatment solutions. Containertech is a rapidly growing company with strong profitability and a modern fleet from high-quality OEMs. The acquisition is aligned with Renta’s strategy to expand its specialised infrastructure machinery rental business, while seeking to leverage cross-selling opportunities between Renta’s general rental services, and its tunnelling infrastructure operations.

The acquisition has been completed.

Leif-Martin Drange, Managing Director at Renta Norway, said:

“Containertech Rental provides high-quality specialised equipment to support our growing infrastructure rental business unit. By combining Containertech Rental’s operations and fleet with Renta, we see a strong opportunity to elevate our capabilities. This acquisition not only reinforces our market position but also enables us to offer a more complete and competitive solution to our customers in the infrastructure space.”

About Renta Group

Renta Group is a Northern European full-service equipment rental company founded in 2015. The Company has operations in Finland, Sweden, Norway, Denmark, Poland, and the Baltics, with 193 depots and more than 2,300 employees. Renta is a general rental company with a wide range of construction machines and equipment along with related services. In addition to operating a network of rental depots, Renta is a supplier of scaffolding and weather-protection services. For more information, visit www.renta.com
